NAQP CW Contest

Bob Selbrede, K6ZZ
k6zz@ccis.com

Sorry for the delay in reporting these results folks. This turned out to be the biggest NAQP CW contest to date. Participation was at an all time high, resulting in a load of additional logs to be checked.

The top finishers were all frequent "Top Tenners" with Tree, N6TR, edging out the previous winner, Doug, N6RT, for first place. Tree broke the all time record for most QSOs, but narrowly missed setting a new all time record high score for this contest. As a matter of fact, the top four—N6TR, N6RT, N9RV and W4PA—will make the list of the top ten highest single op scores ever for this contest!

The Multi-Two category was very close as well, with the W5NN crew edging out the KØRF crew for first place. Not too far behind—in third place—was the K5KA crew. Although the all time record wasn't broken, the W5NN and KØRF efforts place them number two and three on the list of highest multi-two scores as well.

It seems that this contest was all about breaking records. As one might expect, records were set in the team competition as well. The Southern California Contest Club (SCCC) won top honors in the team competition again, edging out the Tennessee Contest Group (TCG) and the Northern California Contest Club (NCCC). The SCCC score of 1.26 megapoints knocked the NCCC out of the top spot for the all time high team score.

A whopping 47 teams were pre-registered for this contest, which is simply amazing. It gets better all the time. Promoting the NAQP and the NAQP team competition in particular is the key behind the high level of participation and enjoyment to be found in the NAQP contest. More participants equals more fun and higher scores for everyone! Kudos go to the Society of Midwest Contesters, the Florida Contest Group and the Tennessee Contest Group for their efforts to promote activity. Keep up the good work.

It was nice to see a "theme" in the team competition again. The last presidential election and the attention given to the voters in the state of Florida made for some interesting team names. A little humor takes the edge off the competition a bit, and keeps things interesting and fun. What will the theme of the next NAQP be?

Soapbox

Suddenly, everyone in Florida is named "Chad"?—AA2AD. This was my first NAQP. Was suffering with the flu and flu-like

symptoms. Next year a full effort.—KØUK. I crossed my fingers when N6OL sent me "6O6" as the name—and sent it again when I asked for a repeat. Fortunately my logging program didn't balk at logging the QSO! I enjoyed the contest in the limited time

available.—K1HT. A fun couple of hours. I used the NAQP to try out my IC-706MKIIG in the contest environment. Looks like this rig will do well in expedition service!—K1IR. NAQP is my favorite "bang for the buck" for contest fun. Two 40-meter wire delta loops

and one radio used on all bands.—*K2YWE*. Sure hope all the “Chads” in Florida get counted, or it will definitely affect the results of the contest!—*K4QPL*. Maybe it was me, but the contest seemed slow. I only managed eight hours and most of those were S&P. Great fun anyhow. Thanks everyone—*K4WI*. Great conditions from Texas. Personal best.—*K5WA*. Wow, 600 QSOs in six hours and ten minutes of operation. Fun to have all six bands in great shape.—*K5ZD*. Apparently the only names for hams in Florida are “Chad,” “Jeb” and “Dubya.” Condition were poor. I barely heard W1AW during the 2001 PSK31/MFSK16 tests. 20, 15 and 10 died with the sunset. Still a fun contest, however. I really like the short duration.—*K6DGW*. Personal best by far but not competitive enough to challenge for the top ten box.—*K6LA*. Winter NAQP CW is the best contest of the year!—*K6LL*. Contests don’t get much more fun than the NAQP!—*K7ED*. I spent 9.5 hours running QRP. Nice turnout and plenty of stations to work.—*K7RE*. My best personal score. Great conditions and a new 80-meter antenna both helped.—*K7SV*. Nice to again hear all the CW talent that NAQP brings out. I was happy to give out a few WV mults in this great contest.—*K8KFJ*. The first serious NAQP for me, and I learned a lot of what *not* to do from Ohio! I should have used up my off time during the daylight, and saved the prime nighttime hours for operating! 80 and 160 were great! SO1R here.—*K8ND*. First ever CW contest for me! Boy do I need to practice my CW!—*K9JLS*. Drake C-line, 100 W, attic dipole, 80-meter dipole at 25 feet.—*K9KM*. It’s always a pleasure to work so many fine operators!—*K9MA*. I was running a Sierra QRP kit rig at less than 5 W and my antenna was a G5RV at 37 feet. This was my first attempt at the NAQP. I operated S&P. 95% of the stations had no problem

Top 10 Combined Single Operator Scores for the January 2001 NAQPs

In a close battle for the highest combined CW/SSB single op score, Dan, N6MJ, came out on top of the heap this time. Close behind were previous winners Doug, N6RT, and Dave, K6LL. All three are members of the SCCC. Congrats to all of these fine ops.

Operator	CW Points	SSB Points	Total Points
N6MJ	420	500	920
N6RT	475	409	884
K6LL	421	384	805
N5RZ	410	379	789
N4ZZ	360	347	707
K9PG	332	341	673
WA1LNP	325	345	670
KM5G	273	264	537
N8VW	263	273	536
W8MJ	260	255	515

copying my QRP signal. I had a great time! Thanks to all that made the contest possible.—*KA1DDB*. I had fun, but too many family activities interrupted for me to put in a serious context effort.—*KC7WUE*. I got all twisted up and thought the contest was the next day, so I only made a few contacts in between other commitments. Duhhh!—*KE5C*. The 100 W power limit sure evens the playing field for me.—*KG8GW*. This is my best score ever in this contest. My all-wire antenna farm seems to be working great. I have four delta loops (10, 20, 15/30 and 15/40), a dipole for 80, and a top loaded 44-foot vertical for 160, all switched with a homebrew selector system. I served on ships with less wire in the air! I had a ball!—*KJ5WX*. The broadband wire antenna amazes me. My best effort, in spite of my short attention span. My exchange, “Chad, FL,” got a few comments.—*KN4Y*. Although peak rate wasn’t as high as at some times in the past, average rate was

quite good. Also, a lot of people are getting good at moving up and down the bands pretty quickly.—*N0AX*. My first NAQP... I loved it. Great participation.—*N0XB*. A very abbreviated showing for me. Lots of family events and duties! Best part of this contest is the QSY request. Since I am horrible at code, each request sends chills up my spine and an adrenaline response to my cardiovascular system. 75% of the time I get the frequency right, the rest of the time I am listening in the ether. My apologies to those I failed to meet; to the others, I hope the mult was worth your struggles with me! See you in the summer!—*N1MD*. Wow! The best activity level in an NAQP yet. This is the first time I can remember having to work to find a clear frequency.—*N2NC*. There was lots of activity. I far exceeded my best score ever. I’m learning more and more about using my beam more effectively, but still have a long way to go. Each contest is a new learning experience.—*N3FR*.
