## NAQP CW Contest

Bruce Horn, WA7BNM  
bhorn@hornucopia.com

Operators in the western US dominated the top-ten single op scores in the January 2005 edition of the NAQP CW contest with the first five places going to stations in California, Oregon and Arizona. N6MJ operated W6YI's station to a new overall single-op record of 367,928 points, just ahead of ZF2NT's old record of 367,360 points. KL9A piloted NK7U's superstation to a highly competitive second place showing and new Oregon record, while N6TR took third. N6RO was fourth from California, followed by Arizonan K6LL in fifth. N3BB nipped fellow Texan K5PI and Austin Powers teammate, operating K5TR, for sixth by a mere 47 points, while Californian K6LA took eighth. W9RE and W4PA rounded out the top ten from Indiana and Tennessee, respectively.

K7UP, operating from New Mexico, easily won the single-op QRP category with more than double the score of second-place Californian N6WG. WB8RTJ took third from Ohio, while VA3DF captured fourth from Ontario with WB8JUI in fifth from Ohio.

The N2IC multi-two crew took first place from New Mexico, narrowly missing setting a new multi-two record. K5KA took second from Oklahoma, while W6YX was third from California.

The Southern California Contest Club #1 team used top-ten single-op finishes by three of its members to take first place in the team competition by a wide margin over the second-place Northern California Contest Club Team 1. The Tennessee Contest Group #1 team captured third.

A number of new records were set. K1KD broke AA1SU's old Vermont record, while W5WMU broke his own Louisiana record by more than 30k. KO7X more than doubled WC7S's Wyoming record and N8II upped WA8WV's West Virginia record by 8k. N6KI, operating XE2MX, and VE9DX each broke their own Mexico and New Brunswick records, respectively, while TG9/N0AT and VP9/W6PH established first time records for Guatemala and Bermuda.

Please remember that one of the ways you can increase your final score is to increase your logging accuracy. A significant number of the logging errors found were the result of inaccurately logging the band on which the QSO took place, particularly when one station worked the same station on multiple bands in quick succession.

### Team Scores

1. SCC #1	2. NCCC Team 1	3. TCG #1
W6YI 367,928	N6RO 316,386	W4PA 258,960
