

Results: North American QSO Party CW —January 2010

Posting both the best QSO and multiplier totals, KL9A operated NK7U's Oregon station to first place in the Single Op category of the January 2010 edition of the North American QSO Party CW. W6YI, operated by N6MJ, edged out N5KO/6 for second place from California, while N4KP took fourth from Florida. Pennsylvanian AA3B was fifth, followed by N4OGW in sixth from Mississippi. W6YX was operated by N7MH to a seventh-place finish in California, while NP4Z took eighth from Puerto Rico. KØEU and W9RE took the remaining Top 10 spots from Colorado and Indiana, respectively.

In the Single Op QRP category, AA4XX was first from North Carolina, followed by W6JTI in California. N2WN, VA3DF and WB8RTJ captured third through fifth from Tennessee, Ontario and Ohio, respectively.

The NR5M operation moved up from second place in 2009 to take first place in the multi-two category from Texas. Arkansas's K5GO took second, followed by the N2IC ops in third from New Mexico.

Although it had no members in the Top 10 Single Op scores, the Central Texas DX and Contest Club Mild team narrowly won the team competition over the Tennessee Contest Group #1 team. Contest Club Ontario #1 placed third.
