

Results: North American QSO Party (RTTY) — July 2011

Don, AA5AU, finished first in the Single Operator category, a nice showing following his return to the top position in February. Nipping at his heels were NR5M, operated by K5GA; W4GKM, and NO3M. The Californians at W6YX led the Multi-Two category with their best-ever July QSO count (933). In team competition the Louisiana Contest Club not only earned first place but two team members were in the Top 10. Close behind were the Northern California Contest Club Team #1 and SWACC #1. Thirty-one teams contributed to the highest activity level ever. Some new state or country records were set by W7RN (WK6I) in Nevada as well as by CO2VE and CT1AGF. Also notable were the North Dakota multipliers provided by the W4HOD/Ø expedition and by KDØCVZ. Working Rhode Island required careful listening for the QRP signal of John, KO1H. Special thanks go to the many Canadian operators and to Gary, KH6GMP, and Gary, AL9A, for their score-boosting multipliers.

Thanks to our log checker, Bruce, WA7BNM. First-place certificates will be e-mailed to all state, province and North American country winners in the Single Operator category. If you believe you've earned a certificate and have not received an e-mail by the end of the year, contact me at rttynaqpmgr@ncjweb.com. Our appreciation goes to Icom America for sponsoring our award plaques. See you again February 25 and July 21, 2012.
