

Results, January 2000 NAQP SSB Contest

Bruce Horn, WA7BNM
bhorn@hornucopia.com

Although the January 2000 NAQP SSB Contest did not produce as many record-breaking scores as the January 1999 running, 15 new single-op records were set while a record number of participants took advantage of great band conditions. Activity remained high throughout most of the contest, with the low bands providing good rates in the last third of the contest after the high bands dried up. As in January 1999, 10 meters was the place to start for most ops.

Once again K6LL was the Single Op winner with the second highest score ever posted in the NAQP SSB. (Dave's January 1999 score is the all-time record score.) K4XS's single-op-leading 258 multipliers produced the third highest all-time score, a new Florida record and a second place finish. W7GG took third while using 10 meters to log more than half of his single-op-leading 1,404 QSOs, shattering AI7B's Oregon record. VE5MX operated VE5DX to an outstanding fourth place finish, while smashing VE5SF's old

Saskatchewan record by almost 90k points. W7NN took back the Washington record from W7WA for fifth place. K9PG piloted K9XD to a sixth-place finish, and broke W9RM's year-old Illinois record.

N6MJ (ex-AD6DO) continued his string of Top-Ten finishes with seventh, while fellow SCCCer, K6RO, captured ninth. VE6JY almost doubled VE6FU's year-old Alberta record in another outstanding

Team Scores

1. Southern California Contest Club #1		2. Team (Way) Sub-Zero		3. Mad River Radio Club #1	
K6LL	313,720	VE5DX (VE5MX)	290,624	K9TM	176,513

Multi-Two Breakdowns

Call	Score	QSOs	Mults	160	80	40	20	15	10
K5KA	458,012	1709	268	155/43	303/53	388/57	559/55	220/41	79/19
K9NS	446,406	1583	282	209/45	294/52	351/56	306/55	170/38	244/36
N5TW	418,816	1636	256	97/32	133/41	303/53	547/58	405/48	145/24

Canadian effort for eighth. W5AO made the Top Ten by piloting NA5B to tenth place and a new Oklahoma record (breaking N5CG's 1992 record).

The K5KA crew used their QSO advantage to take first place in the Multi-Two category by less than 12k points over K9NS. N5TW couldn't overcome K9NS's multiplier advantage and took third. This edition of the NAQP SSB Contest produced one of the most competitive multi-two categories ever, with eight entrants scoring more than 300k points.

In the team competition, the Southern California Contest Club #1 team, with three Top-Ten single-op finishers, nipped the old all-time team record (also by an SCCC team) to take first place. Team (Way) Sub-Zero, an all-Canadian team, became only the fourth team in history to break the million-point mark and took second by more than 200k points over third-place finisher, the Mad

River Radio Club #1 team. The team competition remains highly popular, with members of 30 teams submitting logs. Thanks to the Tennessee Contest Group for continuing its great support of the NAQPs by fielding five teams and to the Society of Midwest Contesters for fielding four teams.

K6LL won the CW/SSB combined plaque with his fourth place finish in NAQP CW and his first place in NAQP SSB. Fellow SCCCers, N6RT and N6MJ, reversed their August 1999 combined finish, for second and third, respectively. Notably, VE5MX took fourth place.

In addition to these top scores, there were many other record-setting performances. W1CRS broke K8HVT/1's 1993 Connecticut record, while W5WMU broke AE5T's two year old Louisiana record. WQ5L set a new Mississippi record by surpassing W5XX's two year old mark. Rod, W7ZRC, more than doubled his own Idaho record score, while W7CT did

the same to WE7B's 1992 Utah record. KT0R added almost 70k points to AA0SQ's 1996 Minnesota record score. In addition to the two new Canadian province records noted earlier, CG4VV barely missed a top-ten score, but broke his own year old Manitoba record. VE2AWR and VY1JA each smashed their own Quebec and Yukon records, respectively.

Although I often mention the importance of knowing the standard abbreviations for states and provinces, many contesters, both top ten and part-time, continue to lose points during log checking because of improper logging of the QTH portion of the exchange. Even though the location of a Canadian station can be directly determined from its prefix (unlike US stations), many Canadian QTHs are improperly logged. Make sure your contest logging software properly logs the NAQP multipliers before submitting your log.

VE5AAD, W9GIGCheck Logs

Relative Band Activity

This table shows the relative activity, based on submitted logs, for each band during each hour of the contest. A score of 100 is assigned to the most active band-hour, in this case 10 meters during the 18Z hour. As an example, 80 meters/2Z had 58 percent of the activity of 10 meters/18Z.

Similarly, the All Bands column shows the relative total activity for all bands during each hour. For example, the 0Z hour had 89 percent of the activity of the 18Z hour.

<i>Hour/Band</i>	<i>160m</i>	<i>80m</i>	<i>40m</i>	<i>20m</i>	<i>15m</i>	<i>10m</i>	<i>All Bands</i>
18Z	—	—	1	12	45	100	100
19Z	—	—	1	27	59	68	98
20Z	—	—	1	40	59	52	96
21Z	—	1	3	55	54	39	96
22Z	1	—	15	66	41	27	95
23Z	—	1	43	79	18	8	95
0Z	—	4	59	73	6	—	89
1Z	1	19	73	44	—	—	87
2Z	9	58	63	16	—	—	92
3Z	27	65	32	—	—	—	79
4Z	33	67	10	—	—	—	69
5Z	30	49	3	—	—	—	52
