

**Preliminary Results: North American Sprint CW – September 2018** – Boring Amateur Radio Club

*(This is a new feature of the CW Sprint reporting – the preliminary results contain the first complete output from log checking and the winners in all the major categories and overlays. After the preliminary results are published, a full version of the results will follow with expanded coverage and any corrections to the preliminary scores. The goal of preliminary results is to give a full picture of the submitted scores with all logs included as quickly as possible, recognizing that additional analysis and review might discover necessary changes. - Editor)*

Category Winners		
High Power	N5KO	16,422
Low Power	KØEU	11,782
QRP	N8NA	6,813
12 Band Changes or Less	N6TR	13,361
Top Golden Log (no errors)	N5ZO	314 QSOs
Top Team	NCCC #1 (N5KO, N6TV, W6YX, K6XX, N6RO)	68,298

Congratulations to N5KO - Trey's win, from the hilltop W6NL station, was his 9<sup>th</sup> Sprint victory, tying him with N2IC for the 3<sup>rd</sup> overall most wins (after N5TJ and N6TR).

The most active multipliers were CA, TX, OH, PA, and IL. Conversely, the five rarest (with more than 1 or 2 QSOs) were HI (8), KP4 (12), NE (20), NV (22), and RI (23).

The most multipliers award goes to K4RO with 47. This facet of the Sprint continues to be a combination of good ears, being on the right side of a QSO, and some good fortune.
