

Results: North American Sprint RTTY — October 2013

Good conditions graced the 26th North American RTTY Sprint, but with only 97 participants, many operators ran out of stations to work (see Figure 1). There were 41 multipliers within the 46 logs received.

Mork, K6UFO, continues to monopolize the QRP entries with his overall 11th place score, but he achieved less than one-half of his October score, due to the lower participation. Dean, NW2K, topped the Low Power entrants and was fifth overall. Dave, K6LL, led the High Power field to win this Sprint. As a testament to the need for greater participation, his score was lower than Mork's October QRP score!

Eight of the Top 10 were SO2R and made many band changes between contacts. In fact, Dean, N0XR, made the most band changes at 72, more than a band change for every two contacts. Randy, K7TQ, submitted a Golden Log (no errors) with the highest number of QSOs (105). Four of the Top 10 were Low Power.

Four teams were registered, and SWACC handily beat NCCC to win this time (again!). Thanks to all who formed teams to support the contest.

Log check reports (LCRs) are available upon request. We hope to see a larger crowd in the next RTTY Sprint in March.

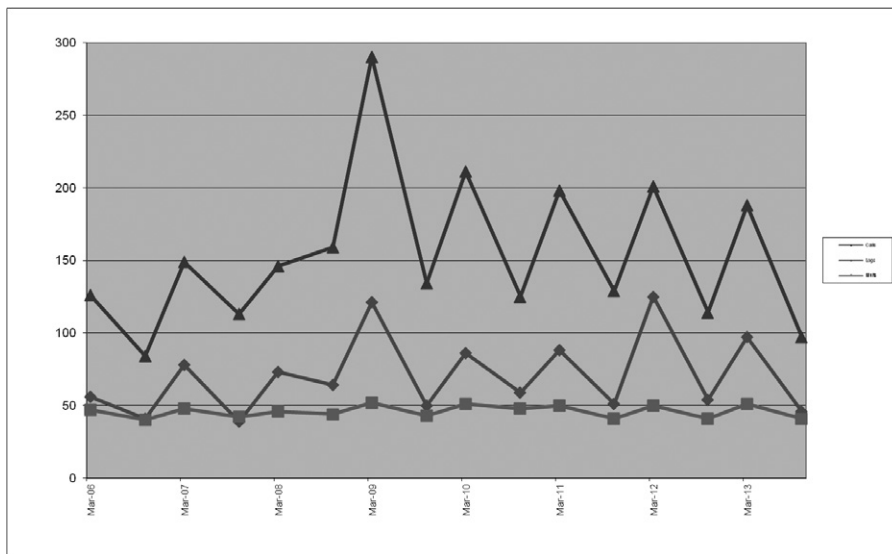

Figure 1 — RTTY Sprint participation over the years
