

Results, February 2004 Phone Sprint

Jim Stevens, K4MA
ssbsprint@ncjweb.com

This was the forty-third Phone Sprint, and a record 156 logs were received. Compared to a year ago, scores were very similar, thanks to the offsetting effect of more QSOs but less multipliers. For the first time in several Sprints, there were no DX logs submitted. In reading the HP and LP Top Ten listings, you will see a few changes. First, I have added error percentages. The error percentages show two different numbers: first is the *you* rate which is the error rate for that station's log and second is the *them* error rate which reports the percentages of busts of that station's info in another station's log. Additionally, I added QSOs Lost and hour-by-hour QSO totals for the LP Top Ten. Finally, I have added a new Top Ten *stat* category for those people who had no busted QSOs in other people's logs. I have dubbed this new stat as *Reverse Golden Logs*.

High Power

K9PG (at WB9Z) notched his third victory. In doing so, Paul became only the second operator to surpass 400 QSOs in a Sprint. Paul has seemingly become Mr. February SSB Sprint, winning the last three February events. Kudos should also go to station owner Jerry, WB9Z, who has built a FB station that Paul has definitely figured out how to pilot in a Sprint.

K4MA	28
KTØR	28

Coming in second was one of the all time great SSB Sprinters who had been missing for a few years—VA7RR. Welcome back, Gary! Rounding out the HP Top Ten were K4XS, W7WA, W9RE, K6LL, KW8N, N9RV, K9NW, and KA9FOX. Congratulations to Dave, K6LL, who became the second person to notch 30 or more Top Ten finishes in SSB Sprint. Also Dan, W7WA, notched his 20th Top Ten finish.

Low Power

In the closest race of this Sprint, K5NZ edged K7SV for the LP crown by only 36 points. Mike had 18 more QSOs than Larry, which barely made up for Larry's 3 extra multipliers. It was Mike's fourth LP win while no one else has won more

than one. Rounding out the LP Top Ten were a lot of the usual suspects with some newcomers thrown in. In order: N5DO, K6ZH, KU8E, N4LR, ACØW, NA4K, KL2A, and WA4PGM.

QRP

Pat, N8VW, became the first multiple winner in the QRP category. The remaining QRP scores are: WB6BWZ, WA4FIB, and KØUSN (WV7T).

Golden Logs

The Top Ten Golden Logs were KI7Y, N6MJ, W4OC, K8MR, N4GI, KJ9C, N6RT, NØICV, and N4NTO. For the first time, here is the list of Top Ten Reverse Golden Logs (meaning there were no busts of these stations' sent info in the
