

Results: North American Party CW — January 2014

Low Power

The bands were quite good for the 2014 January NAQP CW, and the scores certainly reflected the all-around favorable conditions. Racking up the fourth highest score of *all time* and a personal best, Steve, N2IC, came away with the well-deserved Low Power win. Second place went to Trey, N5KO, a mere 24 QSOs and four multipliers behind N2IC. Third place went to Bob, N6TV, with another personal best score. Pat, N9RV, placed fourth. The top four all logged more than 1400 contacts, with multipliers making the major difference in their scores. To put that into perspective, only seven participants have ever broken the 1400 QSO mark. The operators and stations at the top are really maximizing their resources in the 10 allotted hours. Others scoring personal bests in the Top 10 included KØSN from Montana and K5GA in Texas. The West was still king this January, but perennial Top 10 finisher AA3B proved that you can consistently do well from the East Coast.

QRP

Ken, KE3X, put in an impressive effort in the QRP category from N4RV, coming away with a new all-time high score. Ken also proved that you can set records outside of the West Coast. The previous record was held by Dale, KG5U, dating from 2003. Dale's score stood for 11 years; maybe Ken's will stand the test of time. As always, the battle for second place in the QRP category was very close. KØAV edged W6JTI for the number 2 spot by only 4490 points. The rest of the Top Five were bunched extremely closely, with KU7Y and VE6BMX only a few thousand points behind the rest.

Multi-Two

The crew at W2FU came in at number 1 again with the second highest M2 score of all time. Those operators really have this contest figured out! Second place went to the team at NØNI, with a great score out of Iowa. Rounding out the Top Five were NC4KW, W6YX, and N6DZ. It's great to see

M2 activity increasing, and it's a great way to spend a day playing radio with friends without the need for big amplifiers and huge towers.

Team Competition

The team competition was as popular as ever, with 90 teams submitting results. The Ad Hoc team of N2IC, N9RV, W9RE, N9CK, and W4OC posted the best team score. Remember that team participants can be anywhere. There is no geographical requirement.

Since the NAQP has no "assisted" category, any form of assistance puts you into the M2 class automatically. Make sure that your category is correct when you get your log submission confirmation e-mail. Thanks to everyone who participated, especially those who only made a casual effort. Without you, we wouldn't have very many stations to work! I hope to see everyone back for the August NAQP CW.
