

Results: North American QSO Party RTTY — February 2014

The cold weather of the “Polar Vortex” kept many operators indoors and at their radios, leading to increased participation, high scores, and many new records. In the Single-Operator category, Terry, AB5K, finished in first place. After 2 years of second-place finishes, he finally made a move to the top. Terry increased the Single-Op Record by 20 percent. Rounding out the top five were AA5AU, K2PO, W0LSD, and K6LL, respectively.

In the Multi-Two category, the NU2F group at W2FU in Western New York posted the top score. They’ve had 2 years of third-place finishes, but cold weather couldn’t keep them from first place and increasing the M2 record by more than 10 percent. They were chased by groups all claiming more than 1000 QSOs: NR5M, KU5B (@NX5M), W7CT, W6YX and N6RO.

The NAQP teams were popular, with seven teams from the Society of Midwest Contesters, and five teams each from PVRC and NCCC. SWACC put together a stellar team, which increased the team record by 12 percent.

Our QRP leader was Jim, K5ND, in Texas. Thank you to N6TR and WA7BNM for log checking and producing our results, and to Icom for sponsoring our award plaques.

Check your Cabrillo log file before submitting. Some loggers default to “assisted” category, and the use of assistance in the NAQP will place you into the multioperator category (and your score will not count toward your team’s total either).
