

Results: North American QSO Party, RTTY — July 2024

The Summer NAQP RTTY was long and hot.

That is, 10-meter propagation was “long,” and the West Coast had an advantage in being so far from the eastern centers of ham population. The solar flux was over 200, but “long” propagation prevented most “close-in” contacts with nearby states. The high QSO count for 10 meters came from... Kent, KH6CJJ, in Hawaii! For other people, 10 was disappointing:

“10 meters was no meters for me.” - K3TN

“On 10m I saw a lot of spots, none of which I could hear.” - W1UE

And as usual for the July contest, the weather was “hot” with summer thunderstorms. High temperatures and power outages affected many stations, and thunderstorm activity was mentioned by several entrants. Many ops used a “too-close” thunderstorm to take their off-time for meals, etc., but not on their preferred schedule. I have carefully scheduled the NAQP RTTY contests to melt your aluminum in July and freeze it solid in February.

Mitch, K7RL, in Washington was “feeling char-broiled when the shack reached 93°F, but reached the finish line in first place in Single Operator, Low Power, Unassisted.

He was followed by Joe, AIØY, providing the rare North Dakota multiplier.

QRP Unassisted featured new callsigns Dave, WA3LXD, in Florida and Siso, HK3W, in Colombia. QRP Assisted was led by Jim, W7RY, in Missouri.

In Team Competition, it was SWACC #1, with all five team members in the Top Ten of their categories. Deep Dixie Team Elvis and SMC RTTY 1 also had excellent operators putting in great scores. Team membership really increases the operating time and scores as members are motivated to do well for their team.

Multioperator, Two Transmitter

Roy Roberts, WN3F, at N3QE's shack as part of the W4KFC M2 effort in the July NAQP RTTY. Ops were N3QE, W2CDO and WN3F. [Photo courtesy of WN3F]

was led by NJ4P in Tennessee with a station operating well, just hoping for more on 10 meters. Next up were the Texans of NX5M who also topped the 1,000 QSO line. Well done!

We are pleased to have great Youth scores from Bob, WØAAE, in Minnesota and Jake, KD9RSP, in Wisconsin. For WØAAE, the most popular names were John and Jim, and the most worked QTH was Virginia.

While 10 meters was long and disappointing, 80 performed well for many people - quite a surprise for summertime. Many stations had more QSOs and multipliers on 80 meters than on 10.

“80m was where the serious action was.” - NØMA

Welcome to those who reported their “first RTTY contest:” K9SAT, N3RTW, K2SG, K2TNO, KM4CH and WØADL. A number of ops reported the usual setup problems, and K3FH reminds us that the Weekly RTTY Test on Thursday nights (Friday UTC) is a great way to eliminate the problems. A big “thank you” to the Hawaiians and Canadians for the helpful multipliers, and to the DX participants from as far away as Europe and Japan.

Clint, W9AV, operated from a tent on the bank of the Wisconsin River in POTA US-5643. A second radio was used for the CQ WW VHF Contest, and a third radio was used for hunting Parks on the Air. I’m not sure he understands that camping is about “getting away from it all.”

Certificates for NAQP entrants are available online at the *National Contest Journal* website, www.ncjweb.com. Thank you to N6TR and WA7BNM for preparing our scores, and to Icom America for sponsoring our awards. Our next NAQP RTTY will be Saturday, February 22, 2025.

Selected Soapbox from 3830scores.com (Thank you to Bruce, WA7BNM):

It was fun and inspiring to chase everyone on the scoreboard - NW3L

Seeing all the familiar folks in NAQP makes me happy. - VA7ST

Supper was delicious, crab legs and shrimp. But I lost 3 hours of operating. - NN4RB
