

Results: North American QSO Party, RTTY — July 2025

Challenges were overcome in our summer NAQP RTTY contest!

We had thunderstorms from Washington state to the Great Lakes region, and even down to North Carolina. Most operators cease operations and disconnect their antennas when a storm is too close, leading to some unplanned “off time.” Since single-operators need 2 hours off, it’s often just a “change in schedule” rather than a “showstopper.” Dave, NW3L, reported, “Much fun was had, until I had to disconnect for lightning.”

Hot summer weather sent several ops outside to a park or on an expedition — such as WO4O in Florida, AE1P to Arizona, K2NV to Ontario, and KT4Q to Alaska. If you stayed home and didn’t have air conditioning, you’ll agree with Alan, WA3EKL: “I am glad NAQP is only 100 watts, so no amp, and much cooler in the radio room!”

The Solar Flux Index was only 153, far down from the 200s we saw in February and March. Ten meters was spotty for most. Ray, WQ5L, and Bill, AA4LR, both noted, “On 10m the only stations I worked were in Hawaii!” Rick, N1RM, reported that “10m was a non-starter, but there were fresh fish elsewhere.” The poor 10-meter conditions quickly sent people to 15 and 20, where the bands were active, bordering on crowded. Fifteen meters was good until late afternoon for most operators, and 20 was a big “money band” as usual for RTTY. The East Coast went to 40 and 80 meters at their sunset and posted some great scores. The long summer days shorten the time of darkness for 80 meters, so operators on the West Coast run into the problem noted by Ed, AJ6V: “80m just starting to open up when I timed out.”

The “suffering middle” of the country was there whenever you got some short skip. Reid, NØRC, in Kansas reported his highest QSO counts from CA, IL, MD, and VA. He also found the most popular names were JIM and MIKE. Several ops used the name TRIPP in honor of Silent Key N4NTO.

Results

In the Single-Operator category, Nick, KTØW, used the WØSD station in “rare” South Dakota to take the lead. Nick sent a nice photo of his 2BSIQ setup (Figure 1). In second place was Steve, N9CK, in Wisconsin. In third place, Rick, WB8JUI, used the WP3C station to put NP4DX on the air. Rick reports, “Al, WP3C set me up for 2BSIQ and said, ‘Not to worry.’ It worked well for many additional QSOs.”

In Single-Operator QRP, Don, K6GHA, made 222 QSOs to nab the top spot. Don said, “I planned a part-time effort on QRP. And just like potato chips, I couldn’t stop at one.” Close behind was David, N9KT, in Indiana.

In Single-Operator Assisted, Ty, K3MM, in Maryland took top spot, using Maryland’s better 40- and 80-meter conditions to hold off Chris, N6WM, in California. Close behind were familiar calls NØXR, K9CT, and N4ZZ. You’ll see these calls again in the top team scores!

In Single-Operator Assisted QRP, the top spot was taken by Ron, WQ6X, remotely using the KN6NBT station for 145 QSOs. Ron publishes a nice blog of his remote operations at <https://WQ6X.blogspot.com/>.

In Multi-Two, the repeat winner was Ace, NJ4P, in Tennessee, with an all-star team of operators who overcame thunderstorms and computer problems to claim over 1,000 QSOs! They

Figure 1. KTØW using the WØSD station in 2BSIQ. [Nicholas Hauser, KTØW, photo]

enjoy the competition and motivation of the online scoreboard. Operator Ron, WV4P, reported, "I always look forward to the NAQPs. You never know what propagation you will get and the LP really makes it interesting." In second place was a historic call sign, W4KFC, from the N3QE station in Maryland.

In Team competition, it was very close, but SWACC #1 held on, with four of their five operators finishing in their categories' Top Ten. In second place was an NCCC team named Silicon Samurai, which did a good job from the West Coast. SMC Model 19 and Deep Dixie CC Team Elvis also put in great totals. Thirty-three teams showed up for our RTTY picnic. Roberto, K6KM, was on the Silicon Samurai team and sent a photo of his operator point for using the remote W6SRR station (Figure 2). You can tell from Rob's smile that he was having a good time. Don't be fooled by the CW paddles on his shirt or desktop — that is MMTTY software for RTTY on the computer screen.

Some of the DX available included KP2B, YN2RP, HI6M, HK3W,

Figure 2. K6KM using the remote W6SRR station in NAQP RTTY. [Roberto Sadkowski, K6KM, photo]

HA3MGA, HQ9HC, 6Y5PW, ZV8H, and of course, the Hawaiians, Alaskans, VE7s, and VYØERC, who are challenged being so far west or north. Thank you for providing a multiplier.

Certificates for NAQP entrants are available online at the NCJ website,

www.ncjweb.com. Thank you to N6TR and WA7BNM for preparing our scores, and to Icom America for sponsoring our awards. Our next NAQP RTTY will be Saturday, February 28, 2026.

Selected Soapbox comments from 3830scores.com (Thank you to Bruce, WA7BNM):

It took a while to get my diddle back. — VA3PC

A portable vertical for 40-10m and rain gutter for 80 — I live in an HOA! — K3LT

Hmmmm...things to figure out still before the next one. — VA6RCN

Enjoyed making some RTTY QSOs after a fine Tennessee Contest Group gathering. — K4RO

The dueling dipoles worked pretty well on 40 and 80m. — AA4LR

I heard the tones in my head after the contest was over. — WN6A
