

Results: North American QSO Party, SSB — January 2025

We continued to be blessed with generally good conditions while at the peak of Cycle 25. This resulted in 42 new scoring records being set for the January SSB event. However, no new overall category records were set after seeing records broken in the past two years. All the new records were in the state, province and North American country records. Digging a little deeper, we see most of the new records are in the Single-Op Assisted Low Power and Single-Op Assisted QRP categories, which are only four years old. The totals by category are shown in Figure 1.

Even with the new scoring records, there were a few comments that activity seemed to be down. I've noticed that myself in a few contests. So, I looked at the data I have, shown in Figure 2, which shows that, yes, activity is down from the past few years. First, I looked at log they to see that, while they are down from the Covid-induced peak in 2021, submissions appear to be at their typical pre-Covid levels.

Realizing that not everyone submits a log, I next looked at QSO totals. While we see a drop from last year's numbers, activity levels are still above the pre-Covid peak. It will take a few more years of monitoring to see if this reduction is a return to normal activity levels that we saw before Covid or is there some other reason for the recent drop.

North American Collegiate Championship

Participation improved this year in the NACC. Unfortunately, not all schools submitted their logs for adjudication, so their scores are not listed. Repeating as champion in the North American Collegiate Championship is K9IU at Indiana University. This makes

the sixth year out of seven that Indiana University has participated, missing only 2021 due to Covid restrictions. This is the third time the group has won the title, in addition to two second-place scores. The second-place finisher in 2025 is W1KBN at Northeastern University in Massachusetts.

Single Operator

Winning the Single Operator Low Power category is VY2TT, operated remotely by Ken, K6LA. Ken accomplished this without 160 meters due to loading issues with the verticals. Ken's comment on 3830 was, "If I had an antenna on 160m, I coulda been a contender." Appears he was more than just a contender this time. Ken also set a new SOLP scoring record for Prince Edward Island. Following in second is Wolf, NN7CW, operating in Florida. In third is NTØEE, operated by Rich, NØHJZ. Rich also set a new SOLP scoring record for Minnesota.

QRP

A close finish in the Single Op QRP category has David, N9KT, taking first, followed by Brian, N2MF, in second. This is the first time Brian has operated QRP in the NAQP. Third place goes to Don, K6GHA, in California. SO QRP scoring records were set by David for Indiana and Brian for New York.

Assisted Categories

The Single Operator Assisted category had a close race to the finish with KP2RUM — operated by Fred, K9VV — taking first with 346,864 points. Ken, KØEU, in Colorado, was a close second with 344,760 points. In third was W7CXX, operated by Jack, WA7LNW, in Utah, with 320,530 points. Jack set a new scoring record for Utah in SOA LP category.

2025 Jan SSB New Scoring Records	
Category	New Records
SOLP	6
SOQRP	2
SOALP	23
SOAQRP	6
M/2	5

Figure 1. There were 42 new records set in the January NAQP SSB competition.

In the Single Op Assisted QRP category, Dan, K7SS, decided he was up for a challenge with 10 meters being open. Rob, K4OV, thought it was time he tried QRP on SSB. As time went along and propagation moved from 10 to 15, and eventually to 80 and 160, it became tougher and tougher for them to make Qs. In the end, Dan took first, setting a new scoring record for Washington, and Rob finished second, setting a new scoring record for New York.

Youth Participation

Participation by those 25 years of age and younger continues to be strong. More impressive is how well some of the individuals do in the contest. First, we had Katie, KE8LQR, operating K3LR in the Single-Op LP category, finishing with a score of 161,214. This was the top score in the 3rd call district and 21st overall in the category. Also in the Single-Op LP category was Max, N4ML, operating at K4RO with a score of 120,862. This placed Max 4th in the 4th call district and 29th overall.

Kylee, KEØWPA, finished 4th overall in the Single-Op QRP category with a score of 21,049. This was the top QRP score in the zero call district. Finally, Kees, WØAAE, operated KØSF in the Single-Op Assisted LP category. Kees finished with a score of 281,936, which placed him 6th overall in the

NAQP SSB January Activity

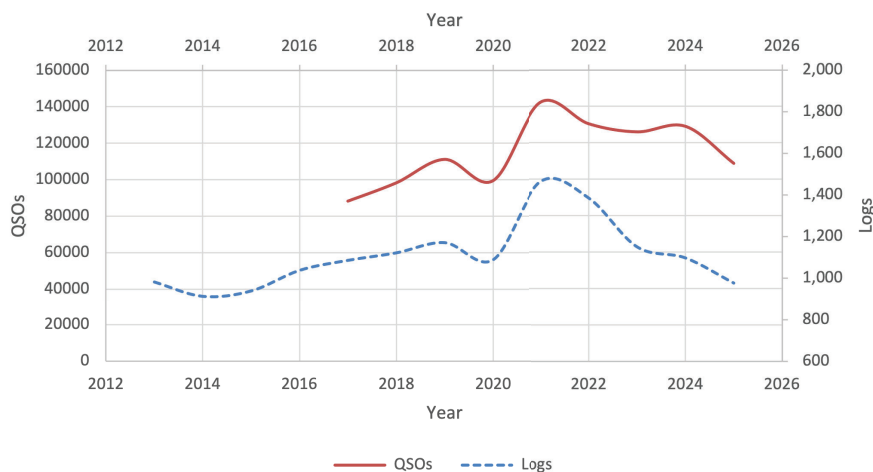

Figure 2. Both log submissions and QSOs are down from their 2021 Covid-induced peaks, but still at or above pre-Covid levels.

category and 2nd in the zero district. Kees also set a new SOA LP scoring record for Minnesota.

Multi-Two

In the Multi-Two category, NX5M made a last-minute decision to put a team together given the cold weather they were experiencing, N6WIN managed to get a team together for ND7K at the request of one of the team members who had been visiting from the east coast, and Krassy decided to put a team together, attempting to win the category from the east coast with K1LZ. The stage was being set

for what became a three-way battle for first. A couple of other teams were in the mix at the start, such as N7DX and K5TR, but as the contest went on, NX5M, ND7K, and K1LZ pulled away. In the end, NX5M finished first with 739,625 points, ND7K was second with 717,807, and K1LZ finished third with 703,660.

Teams

While a new scoring record was not set in the team competition this year, Minnesota Wireless Association (MWA) managed to field a team that has finally finished in first place. Team

MWA 1 with KØSF, NTØEE, WH7Z, NØXT, and NØAT, finished with a score of 955,194 points. Following not too far behind in second were the AOCC Rowdy Riders with 910,073 points. The team consisted of K6LL, KY7M, N7RQ, N4ZZ, and KH7X. Taking third place was FCG Hydros with 843,956 points. The Hydros team consisted of KP2RUM, NN7CW, NE8P, K8MR, and K4SBZ.

Combined Scores

In the combined score competition, we saw some different call signs in the top ten as some of the past winners operated assisted this time. Finishing first was Pat, N9RV, with his 2nd place finish in the CW event and 15th place finish in SSB. Taking second place was Ken, K6LA, finishing 9th in CW and 1st in SSB. In third place was NN7CW with his 8th place finish in CW and 2nd place finish in SSB.

The next NAQP SSB event is Saturday, August 16. Looking forward to working many of you that weekend. As always, log-checking reports are available upon request to ssbnaqpmgr@ncjweb.com.
