

Results: North American QSO Party SSB — August 2014

First, our apologies for the server issues that initially prevented many operators from submitting their logs online. These have been resolved, and I've been assured that things are now more robust in that regard.

But wait! There's more!

We had yet another problem with copies of submitted logs not being placed into my working folder, where the log checkers and I can access them. (All received logs are stored on the server in a secure location, so they cannot be altered.) Copies of these logs are placed in working folders that I and the log checkers use. We'll save you the gory details about the missing logs, the e-mails telling participants that their logs were late and would be considered check logs, the logs that seemed to have been submitted in the wrong category, and the rest. Suffice it to say that all is now well again — we hope.

We have finally unraveled all the issues and been able to produce the contest results. We were not, however, able to publish preliminary results on the website and still make the magazine publication deadline.

So, why am I telling you this? First, we want to make sure that everyone who received a confirmation e-mail on September 21 knows *why* they received that message. Second, we want to assure everyone that we have improved the system to minimize the potential of these sorts of problems in the future.

As a fairly new contest manager, I certainly learned a lot about the whole log receiving and checking process, including a few things that will help me identify problems sooner and head them off. The NAQP team has worked very hard to make

sure these results are accurate and that every log submitted is accounted for in the results. We apologize for the problems and the resulting confusion.

Confirmation E-Mails

With the extra scrutiny given the logs I found several with problems that had been identified in the confirmation e-mail and that the recipient had failed to correct. Without corrections the logs would be reclassified or their scores would be greatly reduced. Fortunately we were able to fix most of these.

This does uncover a larger issue, however: Participants submitting their logs who either don't read or do not understand the confirmation e-mail. For those who do not read the e-mail, don't be surprised if your results are different from what you'd expected. For those who do not understand the e-mail, contact the contest manager for help. I want to make sure your log is problem free, submitted in the correct category, and reflects an accurate score. I prefer not to have to explain after the results are posted/published why your submission ended up as a check log or reflects a score of 0 points.

Single-Operator

The Single-Operator category again saw many new call signs in the Top 10 box. It was a tight race for first place, with less than a 2 percent difference between the first and second spots. Tom, N6NF, in California was able to top second-place finisher Kevin, ZF2DX. Dropping a position from last August's event to finish third was Dave, W6NL, in California. Finishing fourth again was Mitch, K7RL, in Washington. Rounding out the top five was Mike, W9RE,

in Indiana, dropping a spot from his fourth place finish of last August.

QRP

The QRP category has all new call signs in the top five box from last August. Taking the top spot from Maryland was Ken, KE3X, operating at N3HBX. Finishing second was Randy, ND0C, from Minnesota, while Jim, VA3WR, landed in third place. Fourth was Bob, N7WY, in Wyoming. Completing the top five was Bruce, KF7TLL, in Arizona.

Multi-Two

Continuing their streak in the top spot of the M2 category was the team at NX5M in Texas. Finishing second was WX3B in Maryland. In the third position was the AA9AZ team in Illinois operating at K9XD. Fourth place went to NX6T in California, followed by N3BUO in fifth place from Texas.

Team Competition

A total of 68 teams submitted scores for the August event. Taking the top spot in the team competition was SMC All Shook Up. To commemorate the anniversary of Elvis Presley's death, SMC named all its teams after Elvis song titles. In second was NCCC Pirates of Pinot Noir. Third place goes to the GCG Team # 1. Arizona Outlaws Bad Boys finished fourth, followed by SMC Blue Suede Shoes.

Log Checking Reports

Log checking reports are available upon request. To receive yours, e-mail me (ssbnaqpmgr@ncjweb.com), and include the call sign you used during the contest. I'll reply with the LCR within a few days.
