

Preliminary Results: North American Sprint CW – February 2025 – Boring Amateur Radio Club

(These are the preliminary results, based on the first complete output from log checking, including the winners in all the major categories and overlays. A full version of the results will follow with expanded coverage, a complete set of Top Ten and other tables, and any corrections to the preliminary scores. The goal of preliminary results is to give a full picture of the submitted scores from all logs as quickly as possible, recognizing that additional analysis and review might discover necessary changes. - Editor)

Top QSO totals are holding steady with the highest number being 356 made by N2IC. No overall records were set this time. 59 multipliers were active, KW8N worked 52 of them for the highest multiplier total and several stations had 51. Thanks to VE7WO for providing the BC multiplier in both the BC QSO Party and the Sprint. A couple of VT stations were noted as making contacts in both the VT QSO Party and Sprint, as well, although no Sprint logs were submitted from VT. Thanks to Sprinters and QPers alike for making it possible for everyone to enjoy their respective contests.

Results author and *NCJ* editor K3TN is at work on the final results which should be published in a couple of weeks. Until then, I hope you have a good time in the ARRL DX CW contest this coming weekend.

73, Ward Silver NØAX, CW Sprint Manager
