

Preliminary Results: North American Sprint CW
February 2026 – Phil Koch K3UA

(These are the preliminary results, based on the first complete output from log checking, including the winners in all the major categories and overlays. A full version of the results will follow with expanded coverage, a complete set of Top Ten and other tables, and any corrections to the preliminary scores. The goal of preliminary results is to give a full picture of the submitted scores from all logs as quickly as possible, recognizing that additional analysis and review might discover necessary changes. - Editor)

187 logs were received which surpasses the September contest by 58 logs (almost 60!). This is an increase of 31% more logs!! Top QSO totals are holding steady with the highest number being 372 made by KM7W. Hats off to all for being excited about the CW Sprint.

And speaking of multipliers, N5TJ garnered 53 of them for the highest total with several stations achieving 52. Wow! Impressive numbers for sure.

Thanks once again to VE7WO for providing the BC multiplier in both the BC QSO Party and the Sprint. A couple of VT stations were noted as making contacts in both the VT QSO Party and the Sprint although no Sprint logs were submitted from VT. Thanks to Sprinters and QSO Partiers alike for making it possible for everyone to enjoy their respective contests.

Results author and NCJ editor John K3TN is working on the final results which should be published shortly.
