

Preliminary Results: North American Sprint CW – September 2022 – Boring Amateur Radio Club

(This is the preliminary results which are based on the first complete output from log checking and include the winners in all the major categories and overlays. After the preliminary results are published, a full version of the results will follow with expanded coverage and any corrections to the preliminary scores. The goal of preliminary results is to give a full picture of the submitted scores with all logs included as quickly as possible, recognizing that additional analysis and review might discover necessary changes. - Editor)

Category Winners		
High Power	Trey Garlough, N5KO	19,600
Low Power	Eric Tichansky, NO3M	17,472
QRP	Dan Eskenazi, K7SS	9,541
12 Band Changes or Less	Dan Craig, N6MJ	18,972
Top Golden Log (no errors)	Andy Blank, N2NT	362 QSOs
Top Team	Texas Tornados	78,113

Thanks again to VO2AC and VO1BQ for quickening pulses across the land! The top number of multipliers, 56, showed activity from a lot of different places around the continent although not all are represented by a submitted log. Please upload it – your presence is appreciated. The 166 Sprinters who did send in a log made a lot of QSOs and our top QSO total (362 by N2NT) is sneaking up toward “Page 9” (400 QSOs). The bands were full, especially with the good propagation on all three bands. Thanks to all for getting on and making it a fun contest! Full results will be published as soon as possible.

SEPTEMBER 2022 - CW SPRINT PRELIMINARY SCORES

* Low Power, ** QRP
